Normal Like You

Everclear

[Inaudible]
One, two, three, fourYeah, they said you called me maybe yesterday
I don't even have the strength to pick up the phone
You wouldn't even know me since you went away
The Prozac doesn't do it for me anymoreYeah, you ought to take your medication every day
Be a good dog, live a life in a wonderful wayTell me why you wanna be blind?
I don't wanna be normal like you
I know now every day
I get closer to the place inside
Where I can be normal tooOh
I heard those stupid people talk about you again
I just have to laugh to keep from hurtin' back
Their simple minds just cannot seem to understand
You are neurotic and depressed
It doesn't mean that you're sadYou walk around oblivious to everything
You wear that party dress, black mascara
Like a Queen through the dayTell me why you wanna be blind?
I don't wanna be normal like you
I know now every day
I get closer to the place inside
Where I can be normal too
I will never be normal like youAhh
You walk around oblivious to everyone
I see you walkin' slow and simple
Underneath the big black sunTell me why you wanna be blind?
I don't wanna be normal like you
I know now every day
I get closer to the place inside
Where I can be complacent
Yes, I get closer to the place inside
Where I can be sedated
Yes, I get closer to the place inside
Where I can be normal too
(I can be normal too)
I can be normal like youMaybe normal like you
I can be normal like you
