Woe

Downfall Of Gaia

The blood red moon drips down to earth
while entering the void
echoes and shadows in a world of illusion
the gift of life became a curse
darkness inflames the spiral path
deep inside our rotten souls
daylight slowly fades to black
bury my existence in despair
i watched the serpent's eyes
but got poisoned by words
i'm drowning in lies
in a burning world
planting seeds of obscurity
in stillness and solitude we will remain
