

# Cry With Music

## Lime Cordiale

He thinks hes sitting at the right place  
But hes in clear view for a kick in the face  
Now theyre right back where they started from  
One big circle, where they started from I know you like to cry with music  
It can make you sad or happy then you cry  
You might have no reason at all  
I put the music on and the water falls Now Ive got control of this love  
Cause I cant stop writing music for you  
Now Ive got control of this love  
Cause I cant stop writing music for you He goes into her room, he takes off his shoes  
The mood is set to a song similar to this one  
He looks into her eye dont wanna lose you, yeah  
She has won control of the situation I know you like to cry with music  
It can make you sad or happy then you cry  
You might have no reason at all  
I put the music on and the water falls Now Ive got control of this love  
Cause I cant stop writing music for you  
Now Ive got control of this love  
Cause I cant stop writing music for you Trombone solo I know you like to cry with music  
It can make you sad or happy then you cry  
You might have no reason at all  
I put the music on and the water falls I know you like to cry with music  
It can make you sad or happy then you cry  
You might have no reason at all  
I put the music on and the water falls Now Ive got control of this love  
Cause I cant stop writing music for you
