

# Shhh

ohGr

Every time I open my mouth I feel a little bit lower and a little bit slower,  
At times I feel like time and space are a race and I'm feeling like I'm chopping a mountain.  
Inside and I feel like this is why...

Why!(4)  
Whhh!

every time i open my mouth i feel a little...(3)  
every time i open my mouth i feel a little...shit!

sounds like shit.(4)

Every time I'm looking for you I set a bear trap open every wire I go,  
Design life's tweak in timed sequence getting operatic over cuz its already started,  
Its life...  
but I feel like my life.  
isn't mine...(4)  
isn't maaa!  
life...life...life...(~)

Every time I open my mouth i feel a little...shhh.(4)  
Shhh (~)

Shit.  
sounds like shit(3)

Same scene daydream like mind daze.(2)  
Daze,  
Daze,  
Daze,  
Daze...

With both of these noble thighs wrapped firmly around my neck  
I do believe I've found my way to go soaring off the wall,  
I took them to fall.  
Tube around the back misshapen a world thats filled with giants feasting.
