

With You, Without You

[Brad Paisley](#)

You really left your mark
On this old house and this old heart
I see you everywhere
And when I close my eyes you're still there And I know they want me to move on
Start livin' a new life, start writin' a new song
But don't worry, I ain't gonna ask you
To come back and love me, maybe you don't have to
'Cause I can be in love with you, without you It's not that hard at all
It's like you're out of town and just forgot to call
But just because you walked away
Doesn't mean my feelings have to change now And I know you want me to move on
Stop livin' an old life, stop singin' an old song
But don't worry, I ain't gonna ask you
To come back and love me, maybe you don't have to
'Cause I can be in love with you, without you Oh and if you're gone for good
I hope that you go far
'Cause how I feel about you
It don't matter where you are And I know you want me to move on
Start livin' a new life, stop singin' an old song
But I can be in love with you
No matter where you go, no matter what you do
I can be in love with you, without you
