

# Our Final Hymn

## Neverending White Lights

I wanted what I can't have

If I forget, help me to stand  
The rest of our days will be there  
I wanted, so I pretend  
Pull down the voices in your head  
The rest of our days will be there  
My body's awake and alive  
My mind is afraid to fight  
I wanted what I can't have  
The rest of our days will be there
