

# I've Got This Friend

## The Civil Wars

I've got this friend  
I don't think you know him  
He's not much for words  
He's hidden his heart away Oh, I've got this friend  
A loveless romantic  
All that he really wants  
Is someone to want him back Oh, if the right one came  
If the right one came along  
Oh, if the right one came along Oh, I have got this friend  
I don't think you know her  
She sings a simple song  
It sounds a lot like his Oh, I've got this friend  
Holding onto her heart  
Like it's a little secret  
Like it's all she's got to give Oh, if the right one came  
If the right one came along  
Oh, if the right one came along It'd be such a shame  
If they never meet  
She sounds lovely  
He's still trying out of a dream  
If only, if only, if only Oh, oh, if the right one came  
If the right one came along  
Oh, I've got this friend  
If the right one came  
If the right one came along Oh, I've got this friend  
If the right one came along
