

The Woods (feat. Vinny Noose)

Rockit Gaming

You can relate to a place when you feel like time is running out.
My fear awaits, it mutates into something.
What's wrong with this town?

A night in the woods.
Can you feel it?
I never understood.
Did you mean it?

This full moon,
brought me to the woods too soon.
I want to,
show you what the night can do.
Cuz my fate is created.
Time to say goodnight.
This full moon...

The woods are now alive.

As I return I will learn that my home is not the same.
But with my friends I intend to uncover all the mysteries.

I'm not alone in this.
These woods are hideous
I've got a bone to pick.
With what you think this city is.

A night in the woods.
Can you feel it?
I never understood.
Did you mean it?

This full moon,
brought me to the woods too soon.
I want to,
show you what the night can do.

Cuz my fate is created.
Time to say goodnight.
This full moon...

The woods are now alive.

This full moon,
(This full moon!)
brought me to the woods too soon.
I want to,
show you what the night can do.
Cuz my fate is created.
Time to say goodnight.
This full moon...

The woods are now alive.

The woods are now alive.

The woods are now alive.

The woods are now alive.

The woods are now alive.
