

Ballad Of The Band

Bad Company

Who is that band they're been raving about?
Who is that band selling all the girls out?
They've turned the music business inside out
What is their name? It's on the tip of my tongue
You know the ones you must have heard the song
It's played a rakett all day long
The critics acclaimed 'em said you boys are the end
You're gonna take over from our last weeks trends
You're gonna be huge once your advance to spend
Sonny watch your money
'Cause now baby, you're in rock 'n' roll
Well, nobody's has heard 'em till an hour ago
Well, now they're livin' out on Malibu Beach
They got luxury homes and toilets with phones
But a knighthood is still out of reach
It can't be bad, I've heard the woman are rife
Hope they ain't dump though and get sued by a wife
And end up paying for the rest of their life
Sonny watch your money
'Cause now baby, you're in rock 'n' roll
Sonny watch your money
'Cause now baby, you're in rock 'n' roll
Sonny watch your money
'Cause now baby, you're in rock 'n' roll
