Fever

Eva Cassidy

Never know how much I love you You never know how much I care When you put your arms around me I get a feeling that I just can't bear You give me fever when you kiss me Fever when you hold me tight Fever in the morning Fever all through the night Bless my soul I love you Take this heart away Take these arms I never use them And just believe what my lips have to say You give me fever when you kiss me Fever when you hold me tight Fever in the morning Fever all through the night Listen to me baby Hear every word I say No one can love you the way I do Because they don't know how to love you my way You give me fever when you kiss me Fever when you hold me tight Fever in the morning Fever all through the night The sun lights up the daytime The moon lights up at night My eyes light up when you call my name Because I know, you're gonna treat me right You give me fever when you kiss me Fever when you hold me tight Fever in the morning Fever all through the night You give me fever You give me fever, oh yeah Fever all through the night
