Comatose

Grim Skunk

I'm comatose
I'm passed out cold
I lost the flame that lit my soul
There's nothing in my eyes
All the feelings gone
Wake me soon I'll fade away before too longMy heart explodes
My mind breaks down
My heart explodes
My world blacks outThe world is still
Clouds drift by
Nothing moves, nothing breaths, no one cries
Half a million die
Another day goes by
Help me soon before the darkness claims my lifeFine, I feel fine
Something shattered and I lost all the feeling
I had insideCan you touch me
Can you feel me
Can you touch me
Can you reach meNothing hurts when you're comatose
Numb from my fingers to the tip of my toes
My life has lost all meaning
There's nothing left of interestI feel fine, I feel fine
Something shattered and I lost all the feeling I had inside
I feel fine, I feel fine
Something shattered and I lost all the feeling
Something shattered and I lost all the meaning
Nothing matters cause I lost all the feeling I had inside
