Remember To Breathe

Dashboard Confessional

She fixes her lips
They always look perfect
Never a smudge line
Never too muchI try on my blue shirt
She told me she liked it once
She wonders what I'll wear
She knows just what she'll wear
She always wears blueSo sneakers or flip-flops?
I'm starting to panic
Remember she asked you
Remember to breathe
And everything will be okayOkay, okay
Alright, alright
Alright, alright
Alright, alright
Okay
