Giant

Throwing Muses

Hold the man up to your hands
Old hands
Make the man work again, giant can
Giant can get high againHold again or hurt
You will walk to the front and be blessed
Make my bones shiver again
Trust it againMake my bones work, giant can I
I Giant can get high again
I can't hold your head with both hands burned
You will walk to the front and be blessed againOne bed to sweat too scared to so unsettling
One bed to sweat too scared too tired
One bed to sweat too scared to, so I'm settling in
One bed to sweat too scared to grieve
