Sunbeams

Moonlit Sailor

Our sunbeams will have a rough year this year
trying to shine you through 'n' through
Yes I've got all the mirrors it'll take
Don't you worry
you won't get burned

Spend some time in the shade with me

I'm terribly sorry I didn't let you through
I didn't know you were you

I've built a house by the sea for you and me
Walls of glass so don't bring any stones
One of these days we'll open the blinds
Not to worry, you won't get burned

Just spend some time in the shade with me
Close your eyes don't let go of it

I'm terribly sorry I didn't let you through
Don't worry you'll be as new
