And I Know

Art Garfunkel

Funny how we're all so blind,
Love is gentle, love is kind in the nighttime.
Funny we can be so sad,
It doesn't have to be so bad in the daytime.
You want to know, where do the songs all go in your lifetime?
One of these days we'll go and find out where they stay.
Once upon a lover's song,
There was a boy who sang along in the nighttime.
Once upon a lover's dream,
There was a tale of broken wings in the daytime.
You want to know, where do the songs all go in your lifetime?
One of these days we'll go and find out where they stay.And I know, love will come someday.
And I know, love will find a way.
And I know, love will come some way.
And I know, love will change your day.The songs that I bring, the songs that I singÃ¢?Â¦yeah.
Catch a piece of falling star,
Try to keep it in a jar till the morning.
Catch a summer firefly,
Pray that it'll stay alive till the dawning'.
You want to know, where do the songs all go in your lifetime?
One of these days we'll go and find out where they stay.And I know, love will come someday.
And I know, love will find a way.
And I know, love will come some way.
And I know, love will change your day.
