

# Rollin' My Stone

[Stephen Stills](#)

Can you see them runnin' their games on my mind

See the wasted energy flyin' by

Whispering shadows standin' somewhere close by

Don't mean nothin' to me, I can't see your eyes

Somebody rollin' my stone

How could you leave me alone

Oh darlin', you're on your own

Nobody rollin' my stone

On down the road

And I know I've done the same sort of thing

Hidin' inside myself, can't find my way out again

And the world can get so twisted from Mary Jane

Lookin' back it seems so ridiculously insane

Somebody rollin' my stone

How could you leave me alone

Oh darlin', you're on your own

Nobody rollin' my stone

On down the road

Somebody rollin' my stone

How could you leave me alone

Oh darlin', you're on your own

Nobody rollin' my stone

On down the road

So then what have I got to say to you

Nobody's tryin' to tell you what to do

Then they know when you think of something new

Why are you sailin' with that fair weather crew

Somebody rollin' my stone

How could you leave me alone

Oh darlin', you're on your own

Nobody rollin' my stone
