

# Come When You Need Me

Joan Armatrading

So I've been sad  
So I'm confused  
Like most people are at times  
But I love you  
And this love of mine  
Will comfort you  
If need be  
I am your friend  
At times when I'm worried  
I'll shy away from you  
So at times  
I'm without the light I need in life  
But I love you  
And this love of mine  
Will open many doors  
To make you see me  
To make you see me  
See me in loves lightCome when you need me  
I'm needing you  
We could be the starlight in the morning dew  
Even in my sorrows  
I'll smile for you  
Makes me free to see you happySo I turn away at times  
Turn away from right and wrong  
So I freeze in the breeze  
In the breeze of your song  
But I love you  
And this love of mine  
Will see you through  
Giving to us the morning dewCome when you need me  
I'm needing you  
We could be the starlight in the morning dew  
Even in my sorrows  
I'll smile for you  
Makes me free to see you happyCome when you need me  
I'm needing you  
We could be the starlight in the morning dew  
Come when you need meWe could be the starlight in the morning dew  
Come when you need me

Oh I'm needing you  
We could be the starlight in the morning dew  
Come when you need me  
Come when you need me
