Turn It Off

[Rory Oâ€™Malley, Andrew Rannells, Josh Gad, Scott Ba](#)

It hits my mind right through my eyes
It hits my mind right through my ears
It hits my soul right through the air
But I feel nothing but despairAnd it just makes me feel so empty
Then it just makes me feel so sad
So can't you please just turn it off?
'Cause it'll never make me gladThat song is eating up my brain
Destroys my world without restraints
It hits me time and time again
Trying hard to be my friendBut it just makes me feel so empty
And it just makes me feel so sad
So can't you please just turn it off?
'Cause it'll never make me gladAnd it just makes me feel so empty
And it just makes me feel so sad
So can't you please just turn it off?
'Cause it'll never make me glad
