Raw

Saul Williams

What's a song if you can't fuck to it?
I want to move deep in the gut of it
And what's the right kind of behavior
To qualify as someone's savior?What kind of question is that anyway?
I know I don't deserve your time of day
But since you're giving me some time tonight
Then hold me close girl and just squeeze me tightRawI want to touch you on the other side
Where all your anger, fear and hurt reside
I want to get to know the part of you
That I can crawl inside the heart of youRaw
