

# Getting Closer

## Everlife

Wish I could make everybody happy  
But so far it hasn't worked that way  
Everybody has expectations  
Oh yeah, o-o-oh yeah If your looking' for picture perfect  
I'm a girl who's gonna let you down  
Everybody has expectations  
Oh yeah, o-o-oh yeah I'll be the one, the first to admit  
That my life's under construction, yeah I know I'm God's invention  
He knows I need attention  
Getting closer, closer everyday  
Even with misconception  
God knows my intention  
Getting closer more like Him each day God's not, God's not  
God's not through with me yet, yet  
Through with me yet Everyday that I live I'm burning  
How your mercy can make me free  
From all of my expectations  
Oh yeah, o-o-oh yeah I'll be the one, the first to admit  
That my life's under construction, oh yeah I know I'm God's invention  
He knows I need attention  
Getting closer, closer everyday, oh yeah  
Even with misconception  
God knows my intention  
Getting closer more like Him each day God's not, God's not  
God's not through with me yet, yet  
Yeah Even though I may try to become  
What you want me to be  
When I am less, He is more  
He is faithful completely  
Complete me Even though I may try to become  
What you want me to be, yeah  
When I am less, He is more  
He is faithful completely  
Complete me I know I'm God's invention  
He knows I need attention  
Getting closer, closer everyday  
Getting closer everyday  
Even with misconceptions  
God knows my intentions

Getting closer more like Him each day  
God's not, God's not  
God's not through with me yet, yet  
God's not through with me  
God's not, God's not  
God's not through with me yet, yet  
God's not through with me  
God's not through with me
