

Along the Road

Karmin

Experts at eighteen,
With warm beer and caffeine
We spoke all night and hung out 'til the first light would come on
We knew it was over, the morning came sober
We said goodbye and then we smiled through a lie, just thinkin' All the words we never said
All the crazy things we did
Keep on playin' in my head
And although this is the end,
Broken hearts are made to mend
And I know we'll meet again Days turn to weeks, yeah
We've all cut our teeth, so
We keep in touch although we don't talk much
I knew we'd find us some new friends
Life changes, it happens
But we're still crazy for those good old days we had,
Just singin' All the words we never said
All the crazy things we did
Keep on playin' in my head (Ooh, yeah)
And although this is the end,
Broken hearts are made to mend
And I know we'll meet again
Along the road
Oh oh oh ooh
Oh oh oh ooh
Oh oh oh ooh
Along the road Some will lose their way,
Vanish in the haze
But as the sun goes down,
I sometimes think about
Yeah yeah! All the words we never said
All the crazy things we did
Keep on playin' in my head
And although this is the end,
Broken hearts are made to mend
And I know we'll meet again
Along the road All the words we never said
All the crazy things we did
My head
(I know, yeah)

And although this is the end,
Broken hearts are made to mend
And I know that we'll meet again
Along the road Oh oh oh ooh
Oh oh oh ooh
Oh oh oh ooh
Along the road
