

Pieces Mended (Demo)

The Used

Being faced with what I'm faced with I feel
Like I can't rock
Like a rock hit my heart
Started to chain the day
And exploded into pieces Marry me
Stay the same
Lie to me and try to say you never will I've got a feeling in my gut now fills me
With so much hope
Said fuck it I'm fine
Dine and dashed
The pianist peddled into morning
