

My Kind of Woman

Tommy Castro

I can't eat and I can't sleep
Can't get you out of my mind
Got no time for other girls
Make me want to leave all the others behind
You've made me such a happy man
I never felt like this before
Every day I think I love you all I can
Every night, you make me love you more

You're my kind of woman
My kind of woman
You're my kind of woman
You know I'm your kind of man

You give me lovin oh so sweet
Don't hold nothin back
You give me everything I need
When it comes to lovin baby you got the knack
Friends keep calling asking me to come out
And party like we use to do
There ain't no questions girl, there ain't no doubt
I rather be home making love to you

You're my kind of woman
You're my kind of woman
You're my kind of woman
You know I'm your kind of man

I spent allot of time chasing mini skirts
That's all I ever wanted to do
I told myself that'll never change
Until the night that I went home with you

My kind of woman
Baby, my kind of woman
My kind of woman
Yea you are
You give me lovin oh so sweet
You're my kind of woman, my kind of woman
