

I'll Be There

Kenny Loggins

Stand or fall, the love you have is all
You have to give as long as you live
On your own, you're never all alone
There'll be a light to guide you on
Remember that love is there Stand your ground, stand your ground
You made it this far, baby, don't let it go
Stand your ground, stand your ground
This is the moment for you know, oh I'll be there to hold you in my heart
'Cause our love is forever
I'll be there and I'll never let us drift apart
I'll be there for you Comes a day, feels so far away
So far to go, you should know by now
I'll see you, you're free, I know how we used to be
Don't need no heart
You've got the power do whatever you desire
You're gonna bet to win, you're the survivor Stand your ground, stand your ground
I'll spend wherever you have to go, darling oh I'll be there to hold you in my heart
'Cause our love is forever
I'll be there, I'll never let us drift apart
I'll be there for you And I'll be there when you need to feel the love
When your love lasts forever
I'll be there, my heart is gonna be around
You got love, you got love
You gotta know you got my love You got love, you got love
You gotta know you got my love
You got love, you got love
You gotta know you got my love I'll be there to hold you in my heart
'Cause our love is forever
I'll be there, oh I'll never let us drift apart
I'll be there for you And I'll be there when you need to feel the love
'Cause our love lasts forever
I'll be there, my heart is gonna be around
I'll be there for you You got love, you got love
You got love, you got love I'll be there to hold you in my heart
'Cause our love lasts forever
I'll be there, I'll never let us drift apart
I'll be there for you
You gotta love, you gotta love
