

Flirtin'

El Pus

Yo no se que quieres digameShe don't mean no harm she's just flirtin' with you
Don't you go thinkin' that girl wants to be with you
I know
Drawn in by those pretty eyes
Which do have the tendency to mesmerize
In short skirts emphasize her thighs
But you ain't no different than a million guys
Cause she really don't want no man
All she lookin' fo' is a decent friend
She might walk around with you and hold your hand
But nothing comes out in the end cause(chorus)
She don't mean no harm she's just flirtin' with you
Don't you go thinkin' that girl wants to be with you
I know
Plus you got no idea what she's been through
She really don't mean no harm she's just flirtin' with youYeah yeah yeah
And if she did like you, you probably wouldn't know
She does that just so her insecurity doesn't show
And she does it so often and much that people label her a hoe
Fallin' in love with no reciprocation
But you need to let it go(chorus)
Cause she don't mean no harm she's just flirtin' with you
Trust me
Don't you go thinkin' that girl wants to be with you
I know
Plus you got no idea what she's been through
She really don't mean no harm she's just flirtin' with youQuit, quit being a punk cause
Sweetheart
Doesn't mean to tinker with your heart
Doesn't really love you and won't start
All you need to do is play your part
Go play solitaire
Sweetheart
Isn't your companion on the star chart
Isn't tryna play you like Mozart
All you need to do is play your part, your partLalalalalalala lalala
You can play chest but she won't remove the bra
You can find a sunshine, blinded by the light yo
Always keep you grounded when you wanna take flight

She could be your best friend talking on the phone
But you won't get an invite unless her mama home
You won't get a chance to get your grown folk goin'
 But you just can't leave 'em alone(chorus)
Cause she don't mean no harm, shes just flirtin' with you
 Don't you go thinkin' that girl wants to be with you
 I know
 Plus you got no idea what she's been through
She really don't mean no harm she's just flirtin' with you
 Quit (quit) quit (quit) being a punk cause
 Sweetheart
 Doesn't mean to tinker with your heart
 Doesn't really love you and won't start
 All you need to do is play your part
 Go play solitaire
 Sweetheart
 Isn't your companion on the star chart
 Isn't tryna play you like Mozart
All you need to do is play your part, your part
 She don't mean no harm she's just flirtin' with you
 (nah seriously)
 Don't you go think that girl wants to be with you
 (I know it's hard I know)
 She don't mean no harm she's just flirtin' with you
 (It's not love)
 She don't mean no harm she's just flirtin' with you
