

# I Say I Love You

**Darren Styles**

I say I love you when I feel the race coming on  
And it saves me  
I say I love you when I just wanna feel you there  
Beside me  
And I say it a million times again  
And I say it 'cause I want you to hear me say it  
I say I love you when I feel the race coming on  
And it saves me  
I say I love you when I just wanna feel you there  
Beside me  
And I say it a million times again  
And I say it 'cause I want you to hear me say it  
I say I love you when I feel the race coming on  
And it saves me  
I say I love you when I just wanna feel you there  
Beside me  
And I say it a million times again  
And I say it 'cause I want you to hear me say it  
I say I love you when I feel the race coming on  
And it saves me  
I say I love you when I just wanna feel you there  
Beside me  
And I say it a million times again  
And I say it 'cause I want you to hear me say it
