Last Night

Debbie Sims

Last night I couldn't fall asleep
Because I wanted to keep on thinking of you
Last night I was flying high,
I was happy, I was happy
Well, last night you told me something that I
I won't forget if I should live forever
Last night you said you loved me and it
It gave me fever and I thought it over

Baby... (Ooh, baby) My baby... (Oh, yeah)

When you are there
I'm aware that I must be dreaming
When you are near
I can hear my body screaming
Never let me go, honey, never let me go, baby
Never let me go, never ever ever let me go

Last night I couldn't fall asleep
Because I wanted to keep on thinking of you
Last night I was flying high,
I was happy, I was happy
Last night you told me something that I
I won't forget if I should live forever
Last night you said you loved me and it
It gave me fever and I thought it over

Baby... (Ooh, baby) My baby... (Oh, baby)

When you are there
I'm aware that I must be dreaming
When you are near
I can hear my body screaming
Never let me go, honey, never let me go, baby
Never let me go, never ever ever let me go

(When you are there, I'm aware)
That I must be dreaming
(When you are near, I can hear)
My body screaming

Never let me go, honey,
Never let me go, baby, never let me go

[FADE]
