

# Hymn To the Black Sun

## Laibach

(x2)

I shine bright and shed light from afar  
93 million miles to be explicit  
8 light minutes if you're planning a visit  
See I'm the big daddy and this is his system  
My turn to burn so keep on listening  
I give light when all around is dark  
Your choice get sparked or mark my remarks  
See ice couldn't hold me back  
I fall through forty feet in one minute flat  
Meet a solar controller, 'cause that what I was meant to be  
'Cause I was a mystery  
Decade is null  
Decade is null!  
(It's hot, it's hot, it's very hot)

Decade is null  
Hold and praise your nearest superstar  
I shine bright and shed light from afar  
93 million miles to be explicit  
8 light minutes if you're planning a visit  
See I'm the big daddy and this is his system  
My turn to burn so keep on listening  
I give light when all around is dark  
Your choice get sparked or mark my remarks  
Decade is null, decade is null, decade is null  
Check it out while I burn your skull

Hold and praise your nearest superstar

I shine bright and shed light from afar

93 million miles to be explicit  
8 light minutes if you're planning a visit

'Cause I was a mystery

Chain of carbon-nitrogen  
Witness the power of chains

Everything dies in fiery heat  
Everything dies in fiery heat
