

Scythian Empires

[Andrew Bird](#)

Five day forecast bring black tall rains and hellfire
While handpicked tenderness kid gloves tear at the inseam
Halliburton attache cases are useless,
and Scotchguard macintoshes shall be carbonized. And now theyre offering views of exiting empire
Such breathtaking views of Scythian empires
Scythian Empire, horsemen of the Russia steppe
Scythian Empire, archers of an afterthought Routed by Sarmatians, Thwarted by the Thracians
The Scythian Empire Scythian Empire, exiting empire
Scythian Empire, exiting empire
