

# Surfboard

Cody Simpson

She caught up in that new California love  
I'm the kid from out of town, try to get me some  
I asked her how her night's been  
She says let's go for a night swim  
And you know what she meant So come on  
Let the ocean takes us away  
Till we see the daylight  
Come  
And I know that it's getting late  
But we wanna stay She on my surfboard board-board-board-board-board  
She on my surfboardÂ board-board-board-board-board  
She on my surfboardÂ board-board-board-board-board  
She on my surfboard board (Gone ride it, surfboard) Surfboard We woke on the beach down in Mexico  
She asked me how we got hereÂ and I don't know oh-oh-oh-oh  
We got back in the water  
The waves were crashing on her  
And you know, oh  
How it goes So come on  
Let the ocean takes us away  
Till we see the daylight  
Come  
And I know that it's getting late  
But we wanna stay She on my surfboard board-board-board-board-board  
She on my surfboard board-board-board-board-board  
She on my surfboard board-board-board-board-board  
She on my surfboard board (Gone ride it, surfboard) Surfboard Summer lustÂ under Summer dusk  
She told 'em girls can't surf with us  
Surf with us, can't surf with us  
Salt's on her skin  
Left me wanting more on the shore  
Love beach boys like 64, 64  
Gone ride on my brr brr Surfboard board-board-board-board-board  
She on my surfboard board-board-board-board-board  
She on my surfboard board-board-board-board-board  
She on my surfboard board (Go ride it, surfboard) Surfboard Surfboard
