

Summertime Again

RollerBlue

Yeh it feels so good, it feels like summertime again
Hear the night birds calling
And darkness falling
He said welcome back
Seems like a new age dawning
And trouble's stalling
They said welcome back
Chorus With your spirits soaring
And signs of morning
He said welcome back
It's a day awakening
Yours for the taking
They said welcome back
Chorus All's right with the world
Walking these city streets
Your wishes are heard
And promises ours to keep
Chorus Bright lights, city nights
A new adventure, in your sights
Chorus
