Forever Down

Black Label Society

Take a look inside the warped and the sick
Forever born again just to die so quick
The floodgates of the damned
Shall crash and burn once againNuclear obsession, the fall of the weak
Atomic demolition, destroy all you see
The floodgates of the damned
Shall crash and burn once againDown, down, down
Forever down
Down, down, down
Forever downTerrified reflections that rip through the sky
Apocalyptic bird that screams and it cries
Floodgates of the damned
Shall crash and burn once againThe reverened of the grave
The mother of the end
The wings of the bastard
Shall spread once againDown, down, down
Forever down
Down, down, down
Forever down
...
