

Slow Ride

American Young

I've been hittin' it, gettin' it, livin' in overdrive
Runnin' and gunnin' and Lovin' you on the fly, Baby, way, too, long...Slow motion, and holding and glowing
and candlelight is what we've been missing, but we won't miss it tonight...

Baby...

Dusk 'til dawn...Yeah tonight we're going to rock and roll and make an old feeling feel new
I can see that you've been needing it, believe it, Baby, I do too! I'll put an old vinyl on, you put your hand in
mine...

Baby buckle up, I'm about to take you on a slow ride

I've been getting a vision of kissing you up and down.

Heartbeats and sheets and feet off the ground, baby fire on fire...Yeah tonight we're going to rock and roll and
make an old feeling feel new

I can see that you've been needing it, believe it, Baby, I do too! I'll put an old vinyl on, you put your hand in
mine...

Baby buckle up, I'm about to take you on a slow ride

Yeah tonight we're going to rock and roll and make an old feeling feel new

I can see that you've been needing it, believe it, Baby, I do too! I'll put an old vinyl on, you put your hand in
mine...

Baby buckle up, I'm about to take you on a slow ride
