

Instinct (feat. Mr. Composition)

Jackie Venson

In the stars I see my history
But in the clouds I see your face
You make me feel like I am missing
Drifting off in outer space And in the stars I see my destiny
But in you I see my fate
How many years before you find me
Is how many that I will wait Let me show you I'm your only instinct
Let me show you I'm the only one
'Cos I know that you're my only instinct
And together we could have some fun There's a way the world it moves us
And the timing's always right
So what will be will always be
No matter how hard we fight Let me show you I'm your only instinct
Let me show you I'm the only one
'Cos I know that you're my only instinct
And together we could have some fun It's instinct when our lips meet feelings forever
For potential years better late than never
Dance around the idea of us together
Sounds too good to be true take my chances whenever
Good things come to those who wait
But time keeps moving so let's pick up the pace
I've had ideas of my dream girl could you be the one?
All we gotta do is hot box under the red moon 'til we can feel the sun
You can call it love you can call it fun
Use your instinct see I'm the only one
I'm the only one Let me show you I'm your only instinct
Let me show you I'm the only one
'Cos I know that you're my only instinct
And together we could have some fun Let me show you I'm your only instinct
Let me show you I'm the only one
'Cos I know that you're my only instinct
And together we could have some fun
