

Waste Love (feat. Madison Love)

Machine Gun Kelly

[Machine Gun Kelly:]

Woke up and you wasn't nice to meet this mornin'
Saw a yellow cab drive you down the street on Broadway
Wish I could erase the mistakes that I made, I'm sorry
Wanted me to chase you inside, but the house too haunted I tried to get away with the worst this time, you
caught me
Tried to find a place for the words so I can say sorry
It's so shitty how I waste love
I know it's shitty how I waste love
C'mon, every night I'm wasted, wasted, wasted, wasted, wasted
It's gettin' hard to fake how I feel when your face still taunts me
I know it's hard to fake how you feel, do you not still want me?
How'd you run away from the place you brought me?
I did it to myself, though, go ahead and blame this on me [Madison Love (Machine Gun Kelly):]
You tried to get away with the worst this time, I caught you
I tried to make you stay with my words, but this time I lost you
So shitty how you waste love (It's shitty how I waste love)
It's so shitty how you waste love (I know it's shitty how I waste love)
Get on livin' that you wasted, wasted, wasted, wasted, wasted [Machine Gun Kelly:]
Wait, I thought we were done
How'd you end up in my arms last night? (Fuck)
I guess a little bit of pain kinda make it feel good sometimes
Why you tryna run when I feel like you the one sometimes?
I guess a little bit of pain kinda make it feel good
[Madison Love (Machine Gun Kelly):]
You tried to get away with the worst this time, I caught you
(But this time, this time you caught me)
I tried to make you stay with my words, but this time I lost you
(This time, this time I lost you)
So shitty how you waste love (It's shitty how I waste love)
It's so shitty how you waste love (I know it's shitty how I waste love)
Get on livin' that you wasted, wasted, wasted, wasted, wasted [Machine Gun Kelly:]
I thought we were done
How'd you end up in my arms last night?
I guess a little bit of pain kinda make it feel good sometimes
Why you tryna run when I feel like you the one sometimes?
I guess a little bit of pain kinda make it feel good
