

# Victim

## Diamond Head

Body's fighting in the street  
I've been living in the ghetto trying to make ends meet  
Keep the wolf from my door  
Can't rest don't get no sleep  
Living in this city it's alive with knife crime on the street I can hear the sirens wail  
Hear the noise of breaking glass  
Another man's blown away from hate born from the past  
Count your coffin nails or try to make a stance  
You wanna fight the world alone  
A revolution never lasts Don't make me a victim  
I'm not a preacher man oh no  
I'm gonna keep my distance  
I'm not taking sides  
I got no religion man  
I just live my life  
On every corner stands a whore  
Another man robbed of his life  
Stole the money to make a score  
Now the streets are all alight  
Has paradise closed its door?  
Shall I walk towards the light?  
Fate deals the final hand  
I'm just trying to stay alive [Chorus] Around every corner there could be a war  
I've got to watch my back  
I'm going a little crazy  
I'm about to crack  
Going fucking crazy  
Oh yeah  
Going fucking crazy  
Don't make me a victim  
I'm not taking sides  
I got no religion man  
I just live my life  
I'm just a simple man  
I just live my life
