

Dreaming Your Dreams

Hybrid

'Cause where you're going I'll follow you, follow you
And what you're feeling, I'll feel for you, feel for you
And what you're hearing, I'm singing for you
And when you're sleeping, I'm dreaming your dreams for you 'Cause where you're going I'll follow you, follow
you
And what you're feeling, I'll feel for you, feel for you
What you're hearing, I'm singing for you
And when you're sleeping, I'm dreaming your dreams for you 'Cause where you're going I'll follow you, follow
you
And what you're feeling, I'll feel for you, feel for you
What you're hearing, I'm singing for you
And when you're sleeping, I'm dreaming your dreams for you 'Cause where you're going I'll follow you, follow
you
And what you're feeling, I'll feel for you, feel for you
What you're hearing, I'm singing for you
And when you're sleeping, I'm dreaming your dreams for you
