

Overload (feat. Miguel)

[John Legend](#)

Yeah we used to flirt with freedom
'Fore everybody knew our name
We became their favorite secret
Love for love and not for fame
Oh when I was your user, your FaceTime abuser
Dose after dose 'til we crashed
Now they bet on our game, say well go down in flames
It's too good but we never could lastBut oh!
We was undercover 'til it overflowed, over exposed (yeah)
Oh!

Chained our love together, never took it slow
And now we know, life on overload (love, love)
Don't we always make a show (love)
Of love (love, love, yeah)Let that cellphone ring, let that bluebird sing
Let that message say unread,
Yeah, let them talk about us, let them talk too much
While we rule the whole world from our bed'Cause oh
We was undercover 'til it overflowed, over exposed
Oh

Chained our life together, never took it slow
And now we know, life on overload
Don't we always make a show
Of love, life on overload
Must we make a spectacle of love?
