

# Trouble With Tribbles

## S.P.O.C.K

On a mission to a station  
we ended up in the bar  
There were Klingons and Cyrano,  
a trader who had travelled far  
Uhura couldn't resist  
the fluffy thing he had for sale  
So she brought it to the Enterprise,  
which proved to be a big mistake  
Trouble with tribbles, multiplying rapidly  
Overwhelming the starship, cute little enemy  
Meanwhile at the station  
similar problems  
The cargo being eaten  
and obviously poisoned  
But Klingons and tribbles  
don't like each other at all  
So a spy was revealed and the plot as well,  
but what to do with every furry ball?  
Trouble with tribbles, multiplying rapidly  
Overwhelming the starship, cute little enemy
