

Wish You Well

Transmit Now

I'll play the hand I've been dealt in this game
With no rules, I'm just trying to win this one.

Well I've been splicing negatives together just to fill out this frame.
Now how would have thought at all?

I see you coming over my way. I have to go...

And I wish you well.
I wish you well.
This is starting to break,
Starting to break me down.

I long for days wasting time in your bed
and we'd say there's no place on this earth we'd rather be.

But now I know, better and whether it's better or not just to leave you alone.
Now who would've thought at all?

I see you coming over my way. I have to go...

And I wish you well.
I wish you well.
This is starting to break,
Starting to break me down.
