Abelcain

In nervous convulsion
Crouches infant ape
Trembling in mothers shit
Cage eyes tear less
Filled with contempt
Clinic mask experiment
With life and deathSmell lingering noxious
Mixed scent anxiety
Omnipotent doctor
Grinds the cage door
Revealing loves primal
Instinct taken away
The tiny face terrifiedRant and rave
Smash your head
Against the cage
Vacuum clicks on highConscious of the pain
Pass off as humane
White coat seems so
Clean most dirt bleached out
Out of greedForce the point of habit
Eyes burn in a rabbit
Push the pain test button
Spines cutTrip mucous inflection
More die, pills each day
What goes around
Comes back stronger
Tap into the brain
Break the skull againSmash price research rat
Lab rent pain in flesh
More ill drug store sales
Sharpen the knifeEmphasis on money
New disease everyday
End is seen and coming
Research turns it's back to gainCrush the spine genocide
Kitten drags its dead limb
Continuing all suffering
It will come back and winShock, paralyze, turn
Trauma burns out
The will to live the lying

Message 5 year genocide
1945 suicide vivisect six
