I Don't Understand

PFR

I retreat
By myself at the back of my brain
I cannot see
What You're showing me through this pain
I have found
That I have found
Nothing for so long[Chorus]
I don't understand
I don't need to
I know You've a plan
You will see through
It is in Your hands
I believe YouI say goodbye
I leave my loved ones far behind
I'm asking
Why is the story of my life
I have found
That I have found
Nothing for so long[Chorus]I was only wondering
I've been trying to understand
I know there is more
So much more than I can see[Chorus: x2]
