

# Stand By

[Sophie Zelmani](#)

It's because to my faith  
In how it should be  
I never consider  
And that's why I let you drive me, drive me crazy It's not a question  
Or try, oh, ones fortune  
What it's all about  
Is to fight to make it live, to make it live and survive So stand by  
Stand by  
Stand by  
Stand by And I won't be scared  
Of the hard times that will come  
Get to a level  
When we get through and then we just go on and on So stand by  
Stand by  
Stand by  
Stand by Stand by  
Stand by  
Stand by  
Stand by
