

Better Way

Spencer Day

Too many people seeking power and fame
Steppin on anyone that gets in the way
And I dont know how they want to play that game
But I wanna find a better way Too many people livin on the street
Too many people taking more than they need
Dont wanna complain about society
I just wanna find a better Refrain:
(Coz) this is a time for an evolution
This is a time for a compromise
And I know it hurts to grow
But the status quo, oh
You know it always comes with a price
Im talkin bout change in the way we re livin
Im talkin bout more than the left to right
We gotta comprehend, it s not us or them
Its the human race tryin to survive Too many people waging holy gihads
Too many killin in the name of a god
Too many people tryin to do his job
And we gotta find a better way Too many soldiers marchin off to war
Too many nations tryin to settle a score
When every battle only leads to more
We gotta find a better way Repeat Refrain Chorus:
Ohhh, we re gonna find a better way
I know we re gonna find a better way
And I know you heard it before but Ill say it once more
Coz we re gonna find a better way Instrumental
Repeat Refrain
Repeat Chorus Fade:
(We re going to find a better way)
(We re gonna find a better way)
