

# Radio Future

## Machinae Supremacy

Can you sense our somewhat misaligned  
Attention spans, uninterested minds  
Feels like only white noise on the air  
A substance without meaning  
Who are we?  
And why should we believe? How much more of this can you contain?  
Why is it your head feels like a drain?  
But you don't have to be an end-link in this chain  
Become our counter-culture  
Broadcast yourself into  
The revolution on YouTube I don't wanna know  
Kill the radio  
I will find my own transmission in the storm  
Hurry on below  
With the antidote  
I wanna see the underground  
Rise up and soar Sick of pimps and bland generic blondes?  
And poser wannabe fake rocker spawns?  
Come now be your own media whore  
Become our counter-culture  
Unleash yourself it's free  
The generation and the seas It's the way to go  
Kill the radio  
Time to make your own transmission in the storm  
Hurry on below  
With the antidote  
I wanna see the underground  
Rise up and soar I don't wanna know  
Kill the radio  
I will find my own transmission in the storm  
Hurry on below  
With the antidote  
I wanna see the underground  
Rise up and... It's the way to go  
Kill the radio  
Time to make your own transmission in the storm  
Hurry on below  
With the antidote  
I wanna see the underground

Rise up and soar
