

Echo

Outtrigger

Pulling out the creature of his cage
Couldn't hide the fear upon your face
But cover up his war and you'll survive Every word you said a perfect lie
Broken up inside you do or die
To cover up his war to stay alive Step right in to a silence When the whip comes down like fire, fire, fire
Hear the echo round the world
Gotta fight back like a lion, lion, lion
Hear the echo round the world
Gonna get what you deserve Everytime the bottle was his friend
Livin' was a battle without end
You cover up his war to stay alive No one heard you although you screamed
He'd love you to the extreme
Get right up and break away When the whip comes down like fire, fire, fire
Hear the echo round the world
Gotta fight back like a lion, lion, lion
Hear the echo round the world
Gonna get what you deserve Deserve Go get heard, heard, heard Everytime the bottle was his friend
Livin' was a battle without end
Did you cover up his battle to stay alive When the whip comes down like fire, fire, fire
Hear the echo round the world
Gotta fight back like a lion, lion, lion
Hear the echo round the world
Gonna get what you deserve Deserve
