# Give me the night

## Monotrop

SOLO: HERMAN

Falling gradually, endlessly the perfect disease
Everyone's a winner but you're down on your knees
Sanity is passing one more shot if you please
For the one final game I won't be playing

Still the same tempting voice in my mind
Losing grip on it all (losing grip on it all)
Carry on through the endless lies
'Cause I can't see a reason why

[CHORUS]Give me the night
Let me be me for one last time
A prisoner of myself lost in disguise
Just give me the night
Still living in a twisted dream
There's no tomorrow for right now will be
The best time of my life

Hammering, sickening, torment and pain

Blind ambition to poison my brain
Cheating, lying, begging, stealing day after day
For the one final dose I won't be saving

Pure darkness consuming my life
Don't wanna die here alone (die here alone)
Walk away from reality
Got a date with the enemy

[CHORUS]
The best time of my life!

SOLOS: FRED / HERMAN / SAM

Still the same tempting voice in my mind
Losing grip on it all (losing grip on it all)
Carry on through the endless lies

'Cause I can't see a reason why

[CHORUS]
YEAH!
