For You

Genevieve

I'll try not to hide from you
After all we've been through
You ask me to tell the truth
And I wouldn't lie to youFor you
I would stand in the line of fire
For you
I would wait till the end of time
For you
I would sail through the darkest water
I'm coming around for you
I'm coming aroundThere was a time we were young
Reckless and wild we would run
Each day was a war to be won
And I was a loaded gunFor you
I would stand in the line of fire
For you
I would wait till the end of time
For you
I would sail through the darkest water
I'm coming around for you
I'm coming aroundI don't wanna lose you now
I won't let you lose the fight
I don't wanna let you down
I won't let you lose your lightFor you
I would stand in the line of fire
For you
I would wait till the end of time
For you
I would sail through the darkest water
I'm coming around for you
I'm coming aroundFor you
I would stand in the line of fire
For you
I would wait till the end of time
For you
I would sail through the darkest water
I'm coming around for you
I'm coming around
