Mourning Gun

Robi Draco Rosa

Here we are like the gun in the snow and we're going in time
Morning comes and I feel there's away yet I don't really knowIf it is you that I love when alone
But I know tomorrow is gone
Maybe there's no time to refrain
Our lives have become morning gun
Gotta gotta fill my disease
Got misfortune crawling under my sleeve
The king of fate is calling my name
Dragon Lizard has an needle in meHe said that is far from control and that he knows
She said that an urge to be alive everytime we flyIt is you that I love when alone
But I know tomorrow is gone
Maybe there's no time to refrain
Our lives have become morning gun
Gotta gotta fill my disease
Got misfortune crawling under my sleeve
The king of fate is calling my name
Dragon Lizard has an needle in me
Gotta gotta fill my disease
Got misfortune crawling under my sleeve
The king of fate is calling my name
Dragon Lizard has an needle in me
Got misfortune crawling under my sleeve
Yeah you gotta feel my disease
