

# Everything Comes Down To This

Gary Numan

This isn't easy  
But it's what I believe  
Something is broken and twisted and pushes away  
No one is listening  
What have we done?  
I feel the empty and darkness is lonely again  
I don't know how this is going to end  
and I don't know how this is going to change  
I don't know how this is going to feel  
But everything comes down to this  
Nothing is easy  
No one is calm  
Love is a stranger that hides in the ponderous saints  
So much unspoken  
Words left for dead  
All I can hear is the screaming of someone to blame  
I don't know how we let this go so far  
and I don't know how we let love turn to pain  
I don't know how we let things fall apart  
But everything comes down to this  
I don't know how this is going to end  
I don't know how this is going to change  
I don't know how this is going to feel  
But everything comes down to this  
I don't know how we let this go so far  
and I don't know how we let love turn to pain  
I don't know how we let things fall apart  
But everything comes down to this
